

OFFICIAL FEEDBACK FORM

DIALOGUE DATE	Monday, 10 May 2021 12:00 GMT -04:00
DIALOGUE TITLE	A model for enhancing food security and nutrition sensitive agriculture.
CONVENED BY	Joan Kerr and Ntiokam Divine
DIALOGUE EVENT PAGE	https://summitdialogues.org/dialogue/19923/
DIALOGUE TYPE	Independent
GEOGRAPHICAL FOCUS	Canada

The outcomes from a Food Systems Summit Dialogue will be of use in developing the pathway to sustainable food systems within the locality in which they take place. They will be a valuable contribution to the national pathways and also of interest to the different workstreams preparing for the Summit: the Action Tracks, Scientific Groups and Champions as well as for other Dialogues.

1. PARTICIPATION

TOTAL NUMBER OF PARTICIPANTS

PARTICIPATION BY AGE RANGE

PARTICIPATION BY GENDER

NUMBER OF PARTICIPANTS IN EACH SECTOR

NUMBER OF PARTICIPANTS FROM EACH STAKEHOLDER GROUP

2. PRINCIPLES OF ENGAGEMENT

HOW DID YOU ORGANIZE THE DIALOGUE SO THAT THE PRINCIPLES WERE INCORPORATED, REINFORCED AND ENHANCED?

The session was designed to encourage diverse attendance and to garner interaction that is thought provoking and solutions based. The strategy was to have an open invitation to a broad audience from multiple sectors and countries to discuss the Food System and explore economic development. This was an open invitation to a broad audience from multiple sectors and countries to discuss the Food System and explore economic development possibilities. The Independent Dialogue was organized in collaboration with CSAYN, ensuring broad participation for attendees and speakers. The session explored topics that looked at the Food Systems, with speakers from the United Nations, International Organizations and Civil Society. The topic was focussed on the Climate Smart Victory Gardens (CSVG) Model as a proven solution, while addressing current environmental, economic and social inclusion issues. The CSVG Model touches on all five Food Dialogue Tracks, making it a comprehensive and sustainable strategy for communities

HOW DID YOUR DIALOGUE REFLECT SPECIFIC ASPECTS OF THE PRINCIPLES?

In organizing the Dialogue, every attempt was made to incorporate all the Principles. The Commit to the Summit Principle played an important role that encapsulated all the Principles. The presenters outlined specific programs to highlight and encourage collaboration to solve the complex food systems. Many highlighted diverse, inclusive, and multiple options to encourage participation, change the food system into a multistakeholder, culturally based and respectful value chain system to create a just, accessible and local food for all.

DO YOU HAVE ADVICE FOR OTHER DIALOGUE CONVENORS ABOUT APPRECIATING THE PRINCIPLES OF ENGAGEMENT?

Read the manual and work with a team to promote and engage as many organizations as possible. As part of the planning and organizing, discuss the Principles of engagement thoroughly, and highlight them during welcome segment to emphasize their importance for the Food Dialogues.

3. METHOD

The outcomes of a Dialogue are influenced by the method that is used.

DID YOU USE THE SAME METHOD AS RECOMMENDED BY THE CONVENORS REFERENCE MANUAL?

Yes

No

4. DIALOGUE FOCUS & OUTCOMES

MAJOR FOCUS

The major focus of the Dialogue explore how can the Climate Smart Victory(CSVG) Model be utilized as an economic development program to ensure access to safe and nutritious food for all. The Five Tracks of the Food Summit Dialogues can be easily incorporated in the CSVG Model. Historically, the Victory Garden engaged women and youth to grow and nourish themselves, can/preserve for future use, and sell the surplus creating income for the family.

Growing local food is one of the best ways to increase nutrition security, reduce carbon footprint, build prosperity and create economic conditions for community. Integrating the Food Summit Dialogues tracks will make a difference in rebuilding neighbourhoods with a sense of belonging and social connections

One of the concrete action is the collaboration of many people from various organizations interacting to discuss how shared resources can make a difference in changing the food system and create food security for all.

ACTION TRACKS

- ✓ Action Track 1: Ensure access to safe and nutritious food for all
- ✓ Action Track 2: Shift to sustainable consumption patterns
- ✓ Action Track 3: Boost nature-positive production
- ✓ Action Track 4: Advance equitable livelihoods
- ✓ Action Track 5: Build resilience to vulnerabilities, shocks and stress

- Governance
- Trade-offs
- ✓ Environment and Climate

MAIN FINDINGS

The key findings are as follows:

- Youth need to see agriculture as an interesting job;
- Solutions need to look at food from production to consumption;
- Agriculture education need to be part of primary and secondary school curriculum;
- Include biodiversity strategies in farming;
- Digital agriculture will play a big role in the future; and
- Making agriculture economically viable

ACTION TRACKS

- ✓ Action Track 1: Ensure access to safe and nutritious food for all
- ✓ Action Track 2: Shift to sustainable consumption patterns
- ✓ Action Track 3: Boost nature-positive production
- ✓ Action Track 4: Advance equitable livelihoods
- ✓ Action Track 5: Build resilience to vulnerabilities, shocks and stress
