AREAS OF DIVERGENCE

Some participants also mentioned about poor administration of local Government in maintaining the broken Food Value Chain during the Pandemic, rather some NGO and local people specially Youth shows the commitment to save the farmers, PLD and other under nourished people. It can be rightly said Youth(Local) become the game changer in establishing the broken system. So the women, Youth need to be empowered both financially and technologically so that they can contribute their time and energy towards the around development of Rural sectors in a Sustainable way.
