AREAS OF DIVERGENCE

One of the issues that were highlighted was participants never knew heard about the UNFSS2021 before then and it brought along of divergence such as: Why are we organising another summit whereas in 2014 there existed one summit ? What's going to be different from previous UN meetings etc. ? Other areas of interest that stepped was the issue of how shall they be able to participate and engage meaningfully . The above mentioned issues were well answered by the Curator during the report back systems .
