

# DIALOGUE RUN OF SHOW

## THE STANDARD FORMAT

### A Dialogue event features three core elements

- **Opening Plenary** to frame the focus for the Dialogue.
- **Discussion Groups** – discussions take place in smaller groups.
- **Closing Plenary** including a report back from each Discussion Group Facilitator

### COVID-19 PRECAUTIONS

All in-person Dialogues must adhere to local rules, regulations and guidance in relation to the unfolding COVID-19 pandemic. Preparations for alternative plans should be made in the case of last-minute outbreaks e.g. moving the Dialogue online.

It is the Convenor's responsibility to ensure that risks are assessed and precautions are sufficiently in place before an in-person Dialogue takes place. Where necessary, Convenors should brief their support team and Participants about COVID-19 precautions and rules ahead of an in-person Dialogue. Please put safety above all else.

Although there is no optimal size or duration, the objective should always be meaningful exchanges between all Participants. In this regard, it is recommended that the Discussion Groups are allocated at least 75 minutes.

- **Recommended duration of event:**  
2.5 – 4 hours (with at least 75-minutes for Discussion session)
- **Recommended number of participants:**  
30 – 100 but can be more depending on the type of event (there may be higher numbers at some global and virtual Dialogue events)
- **Recommended size of Discussion Groups:**  
8-10 members per group (not including a Facilitator and a note-taker)
- **Recommended frequency of Dialogues:**  
Dialogues are most valuable when there are several in a series: each session builds on learnings from those which came before. Positive and sustainable system change can be encouraged through a progression of Dialogues in which stakeholders shape pathways towards food systems that will be equitable and sustainable by 2030.
